

Serving One of the High Sierra's Finest Golden Trout Areas

We pack into the famous French Canyon area. Here you'll find the best in Golden Trout fishing . . . 17 lakes in all . . . and plenty of Golden Trout stream fishing, too.

Pack stock, and experienced packers and guides will take you to this section . . . with about three hours time necessary to reach the first lakes . . . and six to seven hours to the heart of the French Canyon area.

Our rates for all services are reasonable.

To reach our pack station . . . travel to Bishop via U. S. 6 or 395. Then take U. S. 395 and travel about 10 miles north of Bishop to the junction of the Pine Creek state highway. There you'll see our sign, and the U. S. Vanadium Co. mine and mill sign. Travel west on good paved road, and our pack station is at the end of the road, where you'll see our sign.

SEASON: JUNE 15 TO OCTOBER 15.
