What's in store for you on your Sierra pack trip?

On a Sierra pack trip there is fun for every member of your family. You'll remember your ride through the pine forests near the cascading streams. There will be leisurely days . . . to explore new trails . . . to find different wildflowers to photograph . . . to read alongside a serene lake . . . to watch the youngsters sail their boats down the stream . . . to fish for the tasty trout . . . to watch the mountain sunset . . . to gaze at the moonlight on the granite rocks . . . to toast marshmallows at the evening campfire . . . to sniff the fragrance of coffee on the pine scented air . . . to breathe deep of the clear fresh air with a brilliant blue sky above. All these are yours to enjoy on a pack trip. How about letting us help you plan such a trip? *And remember that as always, the coffee pot is always on.*
