AERIAL VIEW SMITHSONIAN SHELTER HOUSE SUMMIT OF MT. WHITNEY

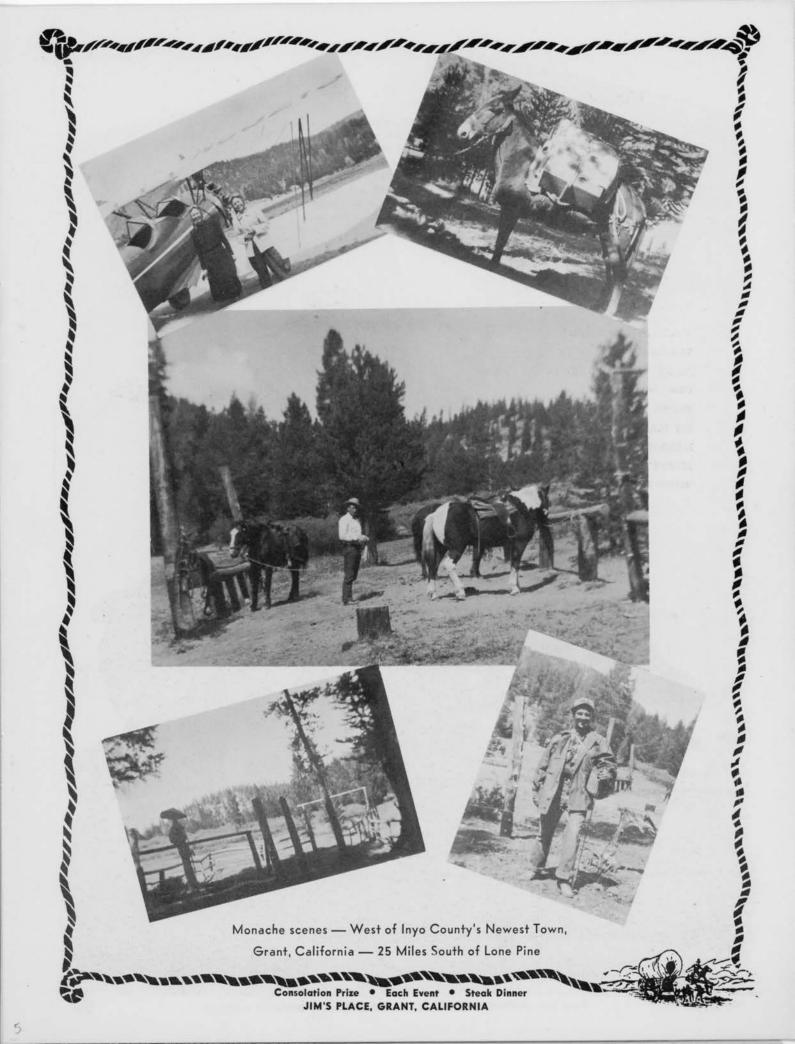

Welcome Message:

We welcome you to our Centennial edition of the Lone Pine Stampede. We hope our show will be up to standards set in other years. We want you to enjoy it a lot.

STAMPEDE COMMITTEE, R. B. Spainhower, President.

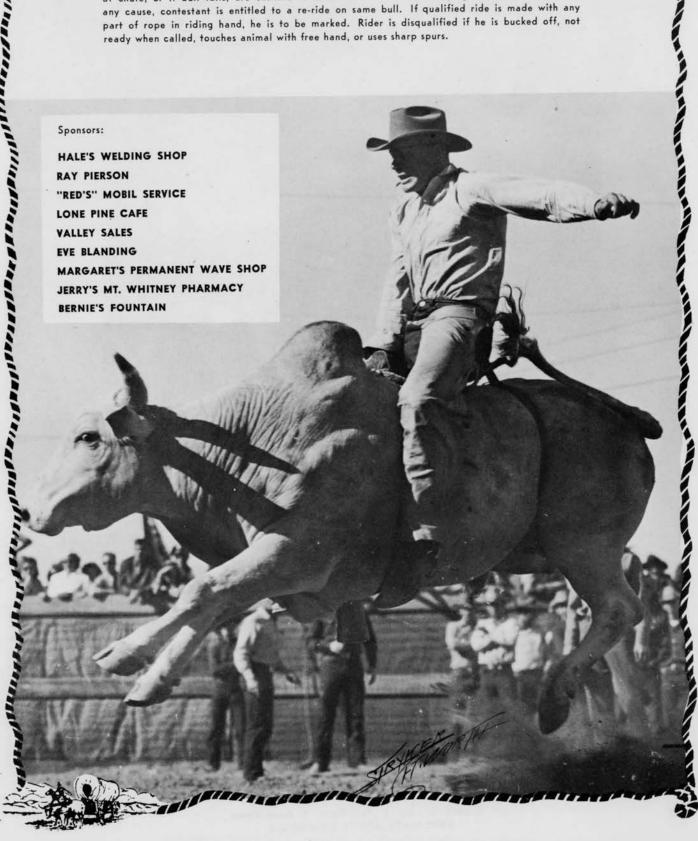

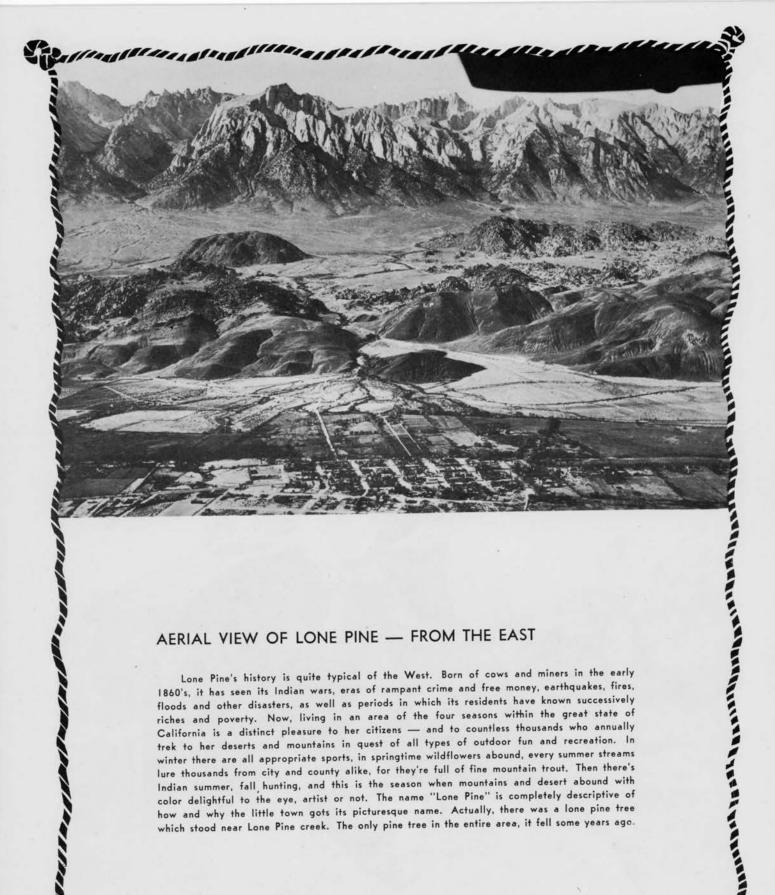

Time starts when bull leaves chute. Eight seconds will be allowed for the ride before signal is given by timer. Riding must be done with one hand and loose rope, with or without handhold, or rigging and one hand. No knots or hitches to prevent rope from falling off bull when rider leaves him. Rope must have bell under belly of bull. Riders who are knocked off at chute, or if bull falls, are entitled to a re-ride at discretion of judges. If rope breaks for any cause, contestant is entitled to a re-ride on same bull. If qualified ride is made with any part of rope in riding hand, he is to be marked. Rider is disqualified if he is bucked off, not ready when called, touches animal with free hand, or uses sharp spurs.

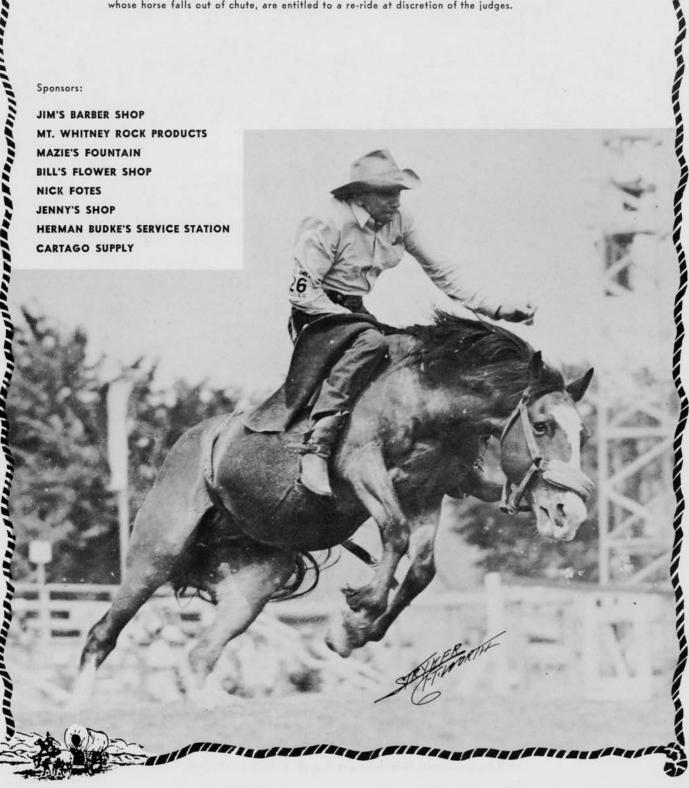

AERIAL VIEW OF LONE PINE - FROM THE EAST

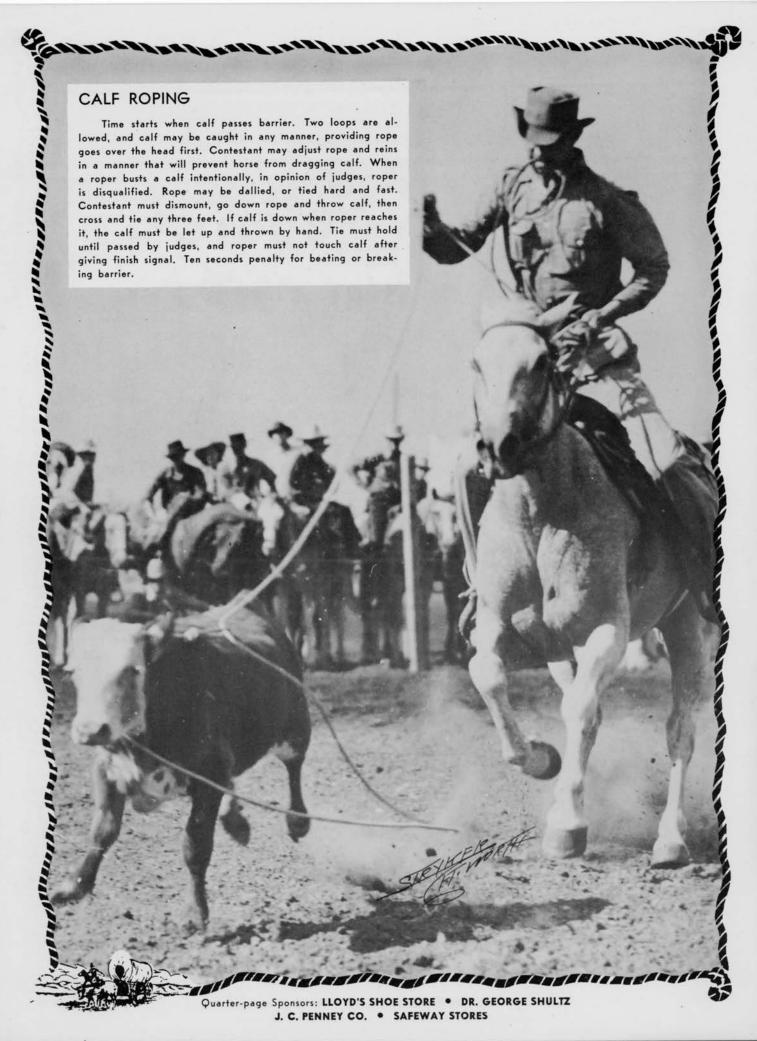

Lone Pine's history is quite typical of the West. Born of cows and miners in the early 1860's, it has seen its Indian wars, eras of rampant crime and free money, earthquakes, fires, floods and other disasters, as well as periods in which its residents have known successively riches and poverty. Now, living in an area of the four seasons within the great state of California is a distinct pleasure to her citizens — and to countless thousands who annually trek to her deserts and mountains in quest of all types of outdoor fun and recreation. In winter there are all appropriate sports, in springtime wildflowers abound, every summer streams lure thousands from city and county alike, for they're full of fine mountain trout. Then there's Indian summer, fall hunting, and this is the season when mountains and desert abound with color delightful to the eye, artist or not. The name "Lone Pine" is completely descriptive of how and why the little town gots its picturesque name. Actually, there was a lone pine tree which stood near Lone Pine creek. The only pine tree in the entire area, it fell some years ago.

BAREBACK BRONC RIDING

Bareback bronc riding is one of the most spectacular events of the day. The broncs are ridden without saddles, one hand rigging is used. Riders may use their own rigging if it is not more than 10" in width at hand hold and not more than 6" 'D' ring, or not a freak. Judges decide on all rigging. Horses are numbered and drawn. Eight seconds is allowed for ride before signal is given by timer. Time starts when horse leaves chute. Riders knocked off at chute, or whose horse falls out of chute, are entitled to a re-ride at discretion of the judges.

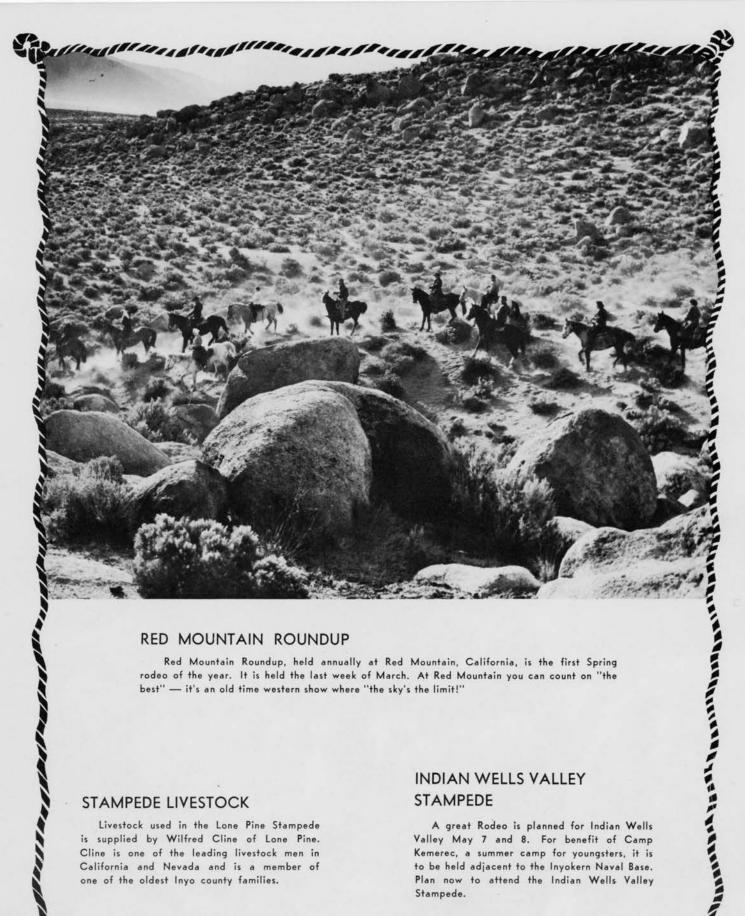

SADDLE BRONC RIDING

Riders draw for mounts. If rider draws a horse he has once ridden during a contest, he must redraw. Contestant must ride as often, and on any horse, judges deem necessary. Riding is done with plain halter, one rein and saddle. Riding rein and hand must be on same side. After horse leaves starting place, horse must be spurred first jump out, high in the shoulders,

RED MOUNTAIN ROUNDUP

Red Mountain Roundup, held annually at Red Mountain, California, is the first Spring rodeo of the year. It is held the last week of March. At Red Mountain you can count on "the best" - it's an old time western show where "the sky's the limit!"

HAS DIRECTED FOR STREET, STREE

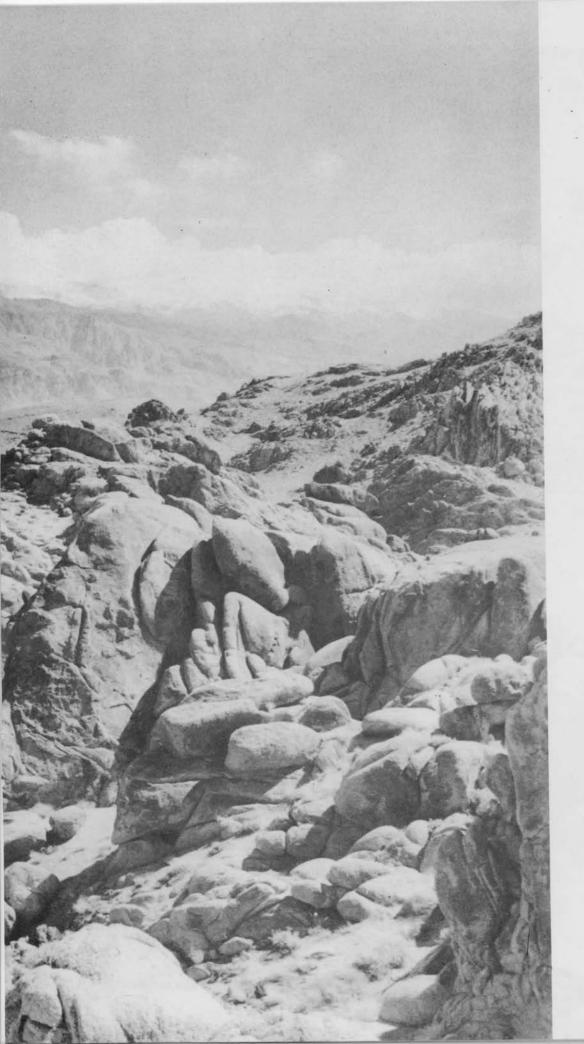

STAMPEDE LIVESTOCK

Livestock used in the Lone Pine Stampede is supplied by Wilfred Cline of Lone Pine. Cline is one of the leading livestock men in California and Nevada and is a member of one of the oldest Inyo county families.

INDIAN WELLS VALLEY STAMPEDE

A great Rodeo is planned for Indian Wells Valley May 7 and 8. For benefit of Camp Kemerec, a summer camp for youngsters, it is to be held adjacent to the Inyokern Naval Base. Plan now to attend the Indian Wells Valley Stampede.

The Alabama Hills

Directly west of Lone
Pine is a land of fantasy.
Here many square miles
of rocky upthrust, weathered by the elements into
every imaginable shape,
make up the Alabama
Hills, the magnet which
draws company after
company from Hollywood
annually.

HUNTING

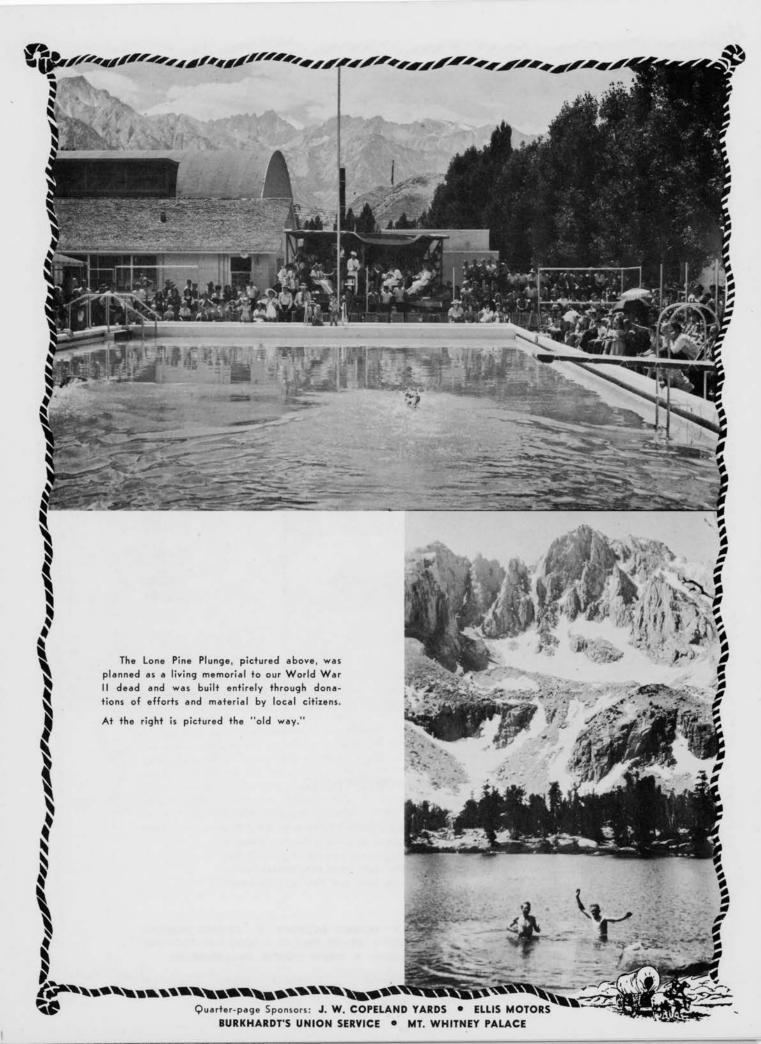

Hunting is good in Inyo county. Last season 1350 bucks were taken and hunters bagged many limits of duck, geese, pheasant and quail. Airfields back in the wilderness areas are a boon to the hunter. Too, a state game farm at Manzanar, 10 miles north of Lone Pine, is planned, as is also a series of check dams in the Owens river designed to provide feeding and nesting areas for wildfowl.

Quarter-page Sponsors: HOPKINS HARDWARE • INYO CAFE WESTERN TRUCK LINES . KERN WHOLESALE, Bakersfield

BULLDOGGING Steer must be caught from horse, brought to a stop and twisted down. If steer is accidentally knocked down before being brought to a stop, or is thrown by the bulldogger by putting the animal's horns into the ground, it must be let up on all four feet and then thrown. Steer is considered down only when it is lying flat on its side, all four feet and head straight. Each bulldogger has a "hazer" who attempts to keep the steer running straight ahead. Hazer must retire from the field as soon as the wrestler catches the steer, and he must not render any assistance. Ten seconds penalty for breaking the barrier. TEAM ROPING

Team roping is regarded by many contestants as the outstanding event of a rodeo. Time starts when steer crosses the barrier. One roper must first catch head, half head or horns of steer, and the other must catch one or both hind feet. Each is allowed two loops. If either misses with both loops, team receives no time. If the animal falls before second rope is on the hind feet, he must be permitted to regain his footing. Both ropes must be on the steer and horses when tie is started. Steer must be tied below hocks. Catching by head and one front foot disqualifies team.

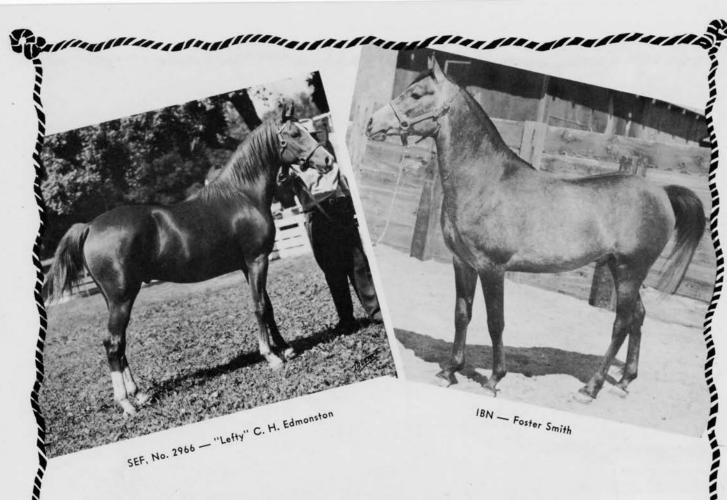

INYO-MONO BRAND OWNERS STEER-STOPPING

Brand owners of Inyo-Mono gather annually at Lone Pine in friendly rivalry for special awards given in the steer-stopping event. They say it's a bit tougher out in front of a crowd than down in the home corral. Time starts when steer crosses barrier. Contestant is allowed only one loop, and steer must be caught by the head.
