

The 1958 High Trip

High Trip 1—Pine Creek area—July 6 – 19

High Trip 2 – Little Lakes Valley – July 20 – August 2

In the Sierra, two periods of two weeks each will start on July 6 and July 20. First session: Pine Creek to Little Lakes Valley, via Selden and Mono passes. Second session: Little Lakes Valley to McGee Creek via Mon, Silver and McGee Creek passes

A new type of trip will be conducted from July 20 to August 2 in the North Fork watershed of the Kings River. This is an experimental outing which will move faster than traditional high trips and will have a smaller staff. “Do-it-yourself” is the theme, and the goal is a compromise between the simplicity of knapsack living and the comparative ease of a high trip.
